World-class investment solutions

Our Irish-domiciled UCITS fund of funds range

Our Irish-domiciled fund of funds range

Marlborough's range of Irish-domiciled fund of funds provide you with comprehensive risk-graded investment solutions in a UCITS structure.

They are expertly managed 'all-in-one' portfolios constructed primarily using Marlborough's award-winning range of single-strategy funds, which invest across a broad range of key asset classes.

As stakeholders in the Marlborough Group, we can access the expertise and resources of the highly-respected managers of these funds at institutional rates, which helps to keep costs for our investors as low as possible.

Managed by Marlborough Investment Management's highly experienced fund of funds team, the Irish-domiciled fund of funds range has been launched in response to investor demand and follows the success of Marlborough International's Guernsey-domiciled fund of funds range.

Benefits of choosing our fund of funds:

- Straightforward, cost-effective 'all-in-one' portfolios of different assets tailored to meet client risk profiles.
- Diversified exposure to a range of global asset classes.
- Centralised investment process designed to produce consistent outcomes.
- Highly experienced investment team use their expertise to decide asset allocation, construct portfolios and then monitor and rebalance them.
- Investment team also have access to award-winning expertise of Marlborough's specialist fund managers.
- Competitive charges, with portfolios investing in award-winning Marlborough funds at institutional rates.
- A straightforward, high-quality outsourced investment solution that allows you, the adviser, to concentrate on the all-important relationship with your client.

Why choose Marlborough?

When you choose our expert team to manage your investments, you will enjoy all the benefits of our 30-year investment pedigree and uncompromising commitment to achieving the best possible risk-adjusted returns for clients.

At Marlborough we take a long-term approach to managing investments. We invest in 'real' assets, such as equities and bonds, and our investors reap the benefits of the long tenure of our highly experienced managers and their investment teams.

The Marlborough story

The Marlborough Group's story began in 1985 when Marlborough Investment Management started providing financial advice to clients and investing money on their behalf.

Today the group has more than £11 billion of assets under management (April 2019) and looks after the investments of more than 200,000 private, corporate and institutional clients. Consistent growth has been built on a reputation for investment excellence and our commitment to working in partnership with advisers to help them build their businesses and better serve their clients.

The group remains resolutely privately owned, which means our objectives are firmly aligned with those of our investors. This means we can focus on delivering exceptional returns without distraction.

REASONS

to choose Marlborough

INVESTMENT PEDIGREE

Award-winning investment expertise, with a 30-year pedigree.

RISK-GRADED RANGE

Broad range of risk-graded, offshore investment solutions, using Irish-domiciled UCITS fund of funds structure.

Our investment process

Investment Process:

ASSET ALLOCATION

At the heart of our investment process is asset allocation, which is based on detailed analysis of how different assets have performed over the long term.

The investment team have modelled returns over 20 years from a range of asset classes - including different equity markets, bonds, property and alternatives such as commodities.

Back-dating performance over two decades means their data covers a range of different market conditions and avoids excessive emphasis on the impact of any single market event.

Using this analysis, they have created a range of asset allocations designed to achieve the best possible returns for different investor risk profiles.

The team do not make tactical asset allocation calls, believing it is difficult to consistently make such short-term market calls correctly and that they do not fit with their careful risk management process.

Instead, they focus on their long-term modelling of asset class performance to construct portfolios that are carefully calibrated to investors' risk profiles.

Investment Process:

FUND SELECTION

Once the asset allocation has been determined, the investment team will select the funds to construct the portfolios.

The award-winning Marlborough Fund Managers' range of single strategy funds are at the heart of our portfolios. As part of the Marlborough Group, we can access the expertise and resources of the highly-respected managers of these funds at institutional rates, which helps to keep costs for our investors as low as possible.

In addition, the investment team will provide diversification by complementing the Marlborough funds with expertly selected low-cost passive funds.

The result is a carefully blended portfolio of funds, built around a risk-graded long-term asset allocation and designed to achieve the best possible returns for the level of risk taken.

Investment Process:

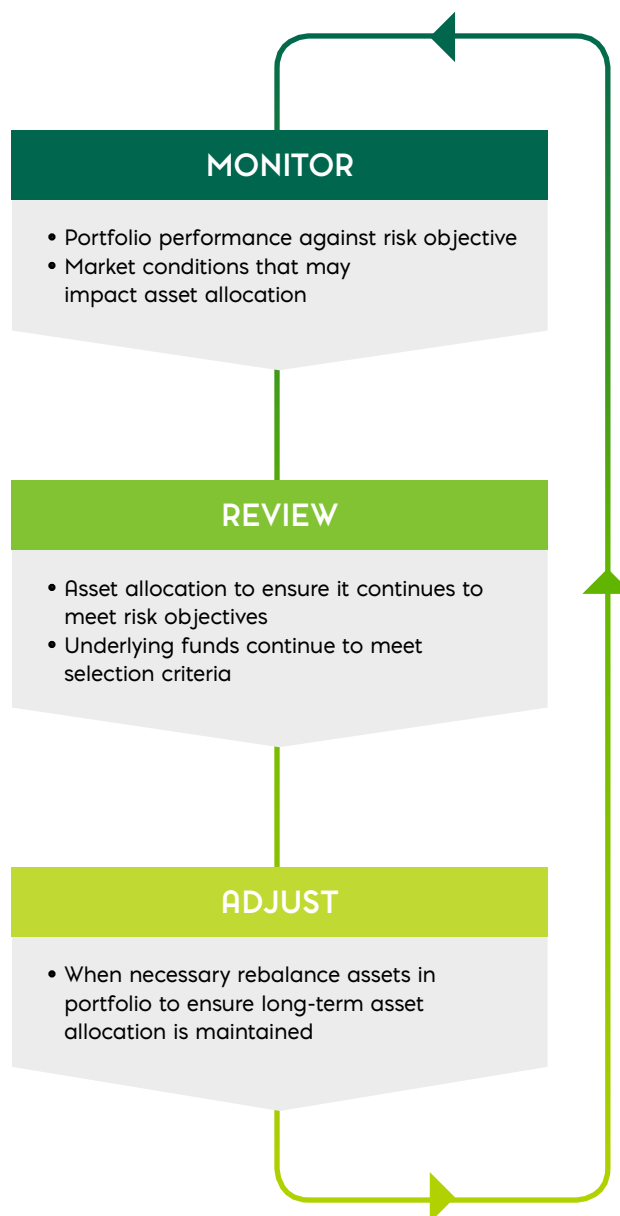

MONITOR AND REVIEW

The Marlborough investment team have a robust and disciplined monitoring and review process in place to ensure portfolios continue to hold the right balance of assets to achieve the best possible returns for investors.

- The long-term asset allocations are assessed quarterly to ensure the optimal risk and reward profiles.
- Funds in the portfolios are reviewed quarterly and rebalanced where necessary to ensure the asset allocation is maintained.
- The suitability and performance of the underlying funds is monitored daily and then formally assessed monthly.
- The investment team are overseen by Marlborough's Investment Committee, which meets monthly.

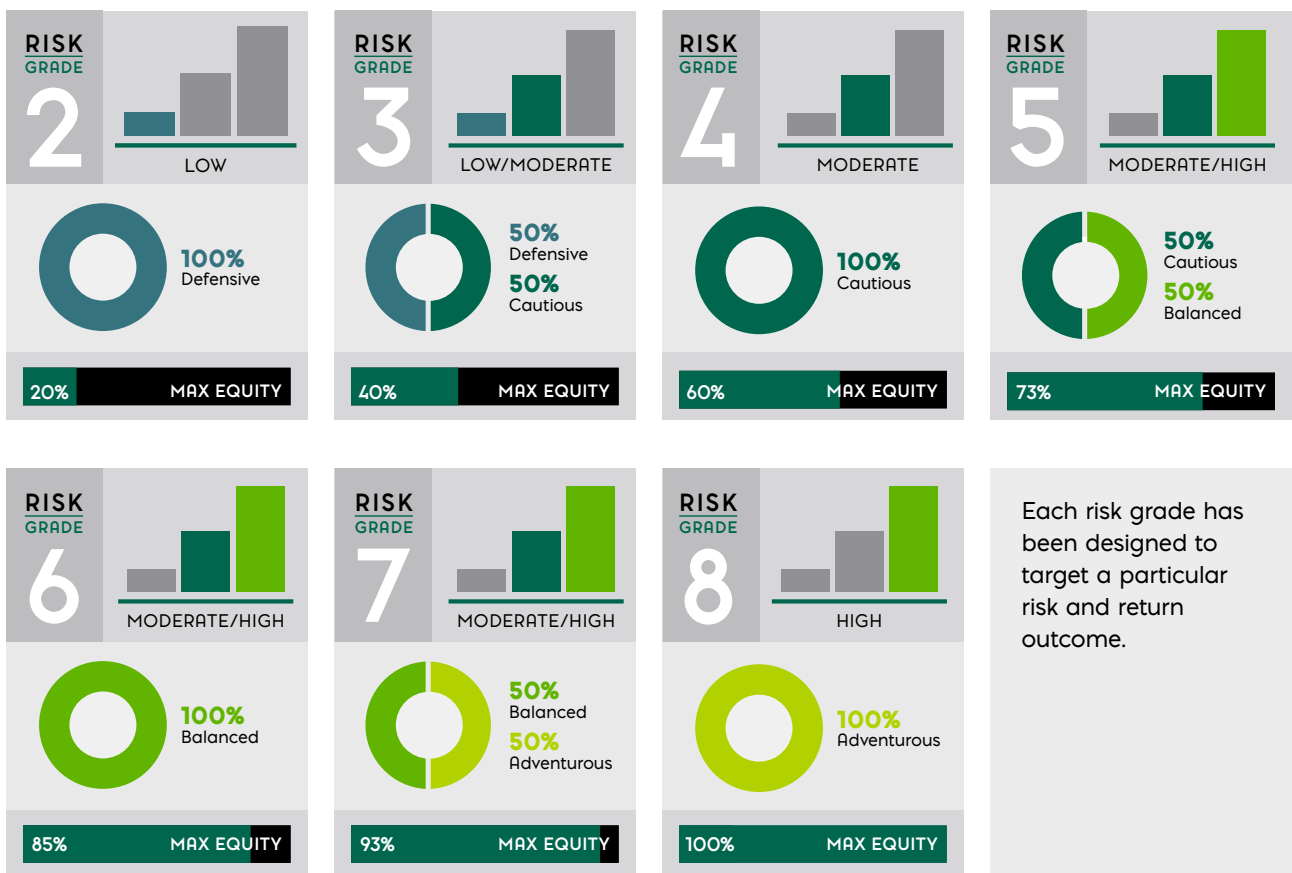

The frequency of assessment may increase if investment conditions change, for example during periods of heightened volatility.

The review process overseen by the Investment Committee is illustrated below:

Risk grades

Used in combination our four funds of funds can be used to target seven risk grades in all, ranging from 2 (low) to 8 (high). For example, a 50:50 blend of our Defensive and Cautious funds, which are risk grades 2 and 4 respectively, provides a portfolio targeting a low/moderate risk grade 3. These risk grades can be used in conjunction with risk-profiling questionnaires, for more information about this please contact your Marlborough sales manager.

A truly experienced team

The Marlborough Investment Management team running our fund of funds are all chartered wealth managers. The team is led by Marlborough's Deputy Chairman Nicholas Cooling and members have more than 75 years' combined investment experience.

NICHOLAS COOLING BA (Hons)

Nicholas is Marlborough's Deputy Chairman. He joined the company in 1991 having been recruited to bring its investment operation, which had previously been contracted out, in-house and to redesign the investment process.

GURJIT SOGGI BA (Hons)

Gurjit is Associate Director, Managed Funds. He joined Marlborough's investment team in 1996, initially analysing unit trusts and OEICs and working closely with Nicholas Cooling. He has been a fund manager since 1999.

RAJ MANON BA (Hons)

Raj is Co-Manager on the fund of funds range. He joined Marlborough in 2003 and has established himself as an invaluable member of the fund of funds team.

SARAH TODINO B.Comms (Hons)

Sarah is an Investment Analyst in the team. She was recruited by Marlborough in autumn 2006.

Risk warnings

Capital is at risk. The value and income from investments can go down as well as up and are not guaranteed. An investor may get back significantly less than they invest.

Past performance is not a reliable indicator of current or future performance and should not be the sole factor considered when selecting funds.

Our funds invest for the long-term and may not be appropriate for investors who plan to take money out within five years.

Tax treatment depends on individual circumstances and may change in the future.
